

My brochure

Our collections | Macrosuede

More than a fashion statement. It's a revolution

The beauty of Warwick's innovative Macrosuede is in the contemporary fashion look it brings to any and every interior: the brilliant colour selection inspired by nature's rich palette, the genuine suede-like texture that is heaven to caress and the technologically advanced durability that outsmarts life's little reality checks.

Warwick's most popular upholstery fabric of all time, Macrosuede is softer to touch yet more durable than other manmade suedes. Despite the rigours of time and trends, children, pets and parties, Macrosuede is presented in a stunning range of the latest fashion colours to let you create the lasting style you've always wanted in your home.
