

Nottage Design - Media information

About our tables:

Everything that is taken for granted in Billiard table design & technology has been challenged.

Nottage Design pool tables blend ultra modern styling & striking new patented technology.

We create the most exclusive high end game room and lifestyle products in the world.

The transparent playing area is composed of the patented Vitrik transparent playing surface on top of a 15mm toughened glass top. The Vitrik playing surface is the world's first & only clear playing area, replicating the rolling resistance of an average-speed cloth. It is hard wearing & allows spin (English) to be applied & retains consistent roll characteristics over its lifetime.

Our premium safety glass is toughened so is 4-6 times stronger than standard glass. Glass, being very rigid & flat, is not prone to sagging or warping so provides a great alternative to slate.

Created to be the ultimate in pool tables. Period. They fill the need for truly unique & cutting edge designer pool tables for the latest in modern interiors. Why settle for an outdated design?

Available in 8' x 4' or 7' x 3.5' sizes. We also provide a range of matching accessories such our unique chrome "white" cue ball, silver cues, glass cue rack & transparent triangle, hanging glass fluorescent light, glass back cue/ball rack & more.

About the G1:

Our flagship pool table, its completely visible integrated ball return system makes a feature of pocketed balls, no more guessing what ball just went in! The ball return is built into the designer frame for the ultimate aesthetics.

Australian RRP \$54,000 AUD includes GST, and cues, balls and triangle.

About the G4:

The G-4 pool table blends minimalist styling & ultimate practicality by converting to a glass top dining table with our 3 piece cover & matching benches (optional extras).

The integrated ball return makes a feature of pocketed balls where they drop onto a silent rubber pad, then appear to "float" across a secondary transparent layer finishing in the collection area.

Utilizing the exceptional strength & rigidity of our toughened safety glass, we conceived a minimalist frame creating a simpler design that allows for the versatility you can expect from an ultra-modern design.

Australian RRP \$36,900 AUD includes GST, accessory kit, shipping & standard installation to all Australian metropolitan areas.

Accessory kit includes: high quality 2.25" balls; triangle; 2 matching silver cues & bridge stick

About Us

Nottage Design is based in Adelaide, Australia and are dedicated to producing the most innovative designer game room and lifestyle products available. We design, manufacture and assemble entirely in Australia using quality suppliers.

Craig Nottage and Edgar Polanco share the vision of creating the ultimate modern lifestyle products.

Craig Nottage is the designer and inventor of the patented glass top pool table and has operated the company for 4 years. It took 2 long and exhaustive years for Craig to bring his vision into fruition; a clear indication of his passion for modern design and problem solving. Shortly thereafter, Edgar Polanco brought his business and marketing skills to assist Nottage Design in selling their products to a large worldwide but exclusive market.

This partnership has resulted in continued success with exports of the products ranging from the USA, Russia, the Middle East and Australia.

Who we work with

Interior designers and architects to create a perfect synergy with our products in their interior, whether it be a private or commercial project.

We also sell direct to consumers and are equipped to arrange all necessary logistics and installation. Hotels, restaurants and other public venues who wish to impress their clientele.

Nottage Design prides itself on:

- Creating the most revolutionary and innovative lifestyle products
- Manufacturing quality products and exporting to a worldwide market
- Providing excellent customer service and accommodating customers needs wherever possible
- Doing everything possible to make sure you enjoy the products you purchase from us
